How to edit the files

You will need Photoshop CS 2+ in order to be able to edit, or modify any of the PSD files in the archive. All the layers are labeled and grouped so you'll find it very easy to modify, edit or extract the elements you need.

Fonts used

We've used a single open font from the Google's open font library for the titles as well as for the paragraphs. The font can be downloaded from here:

After care support

Don't hesitate to contact us anytime via email on hello@pixelkit.com if you have any questions or encounter any issues with this design resource. Please keep in mind that we are not doing any custom work.
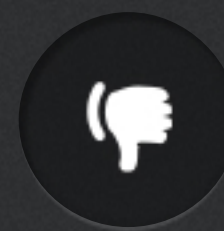

PixelKit membership

You've subscribed to a annual membership that gives you access to all our design resources. Being a digital, non returnable product, this membership operates under a no refund policy.

You are allowed

You are allowed to use the design resources downloaded from our website to create web sites, web applications or software programs for clients, in print or for education purposes (trainings, etc). You are allowed to create Photoshop, HTML or any CMS based templates (WordPress, Drupal, Joomla, etc) that you intend to sell on any template marketplaces (e.g. ThemeForest, Creative Market, etc).

You are not allowed

You do not have the rights to redistribute, resell, lease, license, sub-license or offer the files (or part of elements included) downloaded to any third party. For any web site, web application or software program designed that uses our kits, icons or premium graphics you should not include our graphic resources as an additional attachment. This is considered as redistributing our design resources and is forbidden.
